

FORWARD DESIGN BUILD REMODEL

Kitchen Remodel with Addition and First Floor Improvements

8

"After" photo by CJ South Photography

1669 Arlington Blvd., Ann Arbor

GOALS:

Our clients are in the process of creating their forever home. We are showcasing Phase One of a two phase project. Phase One is a complete interior remodel with a kitchen addition, however, we are only showcasing the first floor. Our clients desired an enlarged kitchen, an updated first floor with improved sightlines, and a functional family entry. All of this in a classic colonial style. Phase Two will be an exterior facelift.

OUR DESIGN BUILD SOLUTION:

Our solution creates a stunning large kitchen that serves as the central hub of the home. The small but powerful bump-out addition provides the space needed for a large central island with plenty of seating and storage. To improve visibility and circulation, three walls were opened up between the kitchen, dining, family and living rooms, while still maintaining a sense of place for their rooms' function. The updated family entry features a large oak bench with painted cubbies and direct access to the back yard. The new family room features a stunning bookcase assembly that seamlessly hides a large television. Custom woodwork and trim details were also incorporated throughout the space including at the staircase railing and family room coffered ceiling.

About Forward Design Build

The Forward Design Build team, led by Jef Forward, delivers inspired design, attention to detail, and quality craftsmanship. Starting with design, our process provides you with options and guidance for your decisions. Finishing with construction, our team dynamic ensures a smooth transition that delivers an exceptional experience and quality product. Start your design today!

This home is located between Washtenaw and Geddes on east side of Arlington. Take Washtenaw to Arlington, and turn onto Arlington, heading north. It is the second to last house on right before Override.
