Kitchen and Bathroom Remodel

2217 Hilldale Drive, Ann Arbor

About the Project

Our clients loved their neighborhood, but their home's features were not exactly everything they'd dreamed. A common problem in Ann Arbor homes, this one had a small, closed-off kitchen. It lacked function, efficiency, and personality! The bathroom and exterior were also in need of updating.

The Forward team created a more open floor plan that improves the flow of both light and traffic in the kitchen and dining area. This home's new quirky contemporary look features several custom pieces, including a banquette and built-in shelving.
