

Kitty Lynch Rose lived a fulfilling life thriving in the many aspects of the construction industry. Immediately following her graduation from Western Michigan University, Kitty began her career in the construction world through Dion Ventures. Expanding her career with a builder's license, Jacobitz Custom Homes was developed where building 15 custom homes allowed her to explore a variety of her technical skills especially merging her unique creativity with craftsmanship while simultaneously raising two children. Kitty flourished in other components of the housing industry including a natural transition into title insurance and sales by obtaining her Realtors license. Capitalizing on her talent and flair in the construction industry, Kitty worked tirelessly developing a fulfilling career that she was truly proud of and passionate about, one of the many things that she is remembered for.
