

# 8 Meadowlark Builders

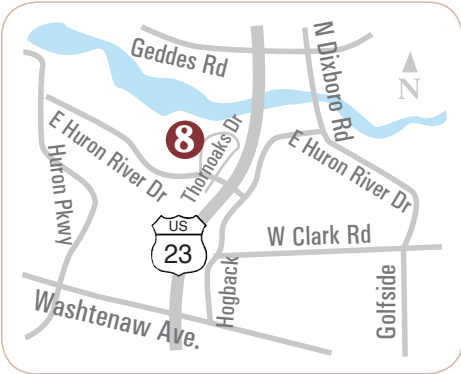

## 4061 THORNOAKS DRIVE, ANN ARBOR, 48103

### ABOUT THE HOME

The confluence of Ann Arbor’s Mallets and Swift Run Creeks has created the South Pond wetland area, home to over 100 bird species. South Pond is the focal point for the amazing views in this Meadowlark custom-designed and built home. Designed to capture the serene views of the Huron River, this new home is as aesthetically stunning as it is resource-efficient. Features like a Structural Insulated Panel Systems (SIPS) roof, radiant in-floor heating, low-flow water fixtures and advanced framing techniques all help ensure that this home will be easy to maintain, energy-efficient and durable.

If you’re thinking about building a new home and not finding what you’re looking for with large-scale developers, maybe a design-build contractor is right for you. Come see this one-of-a-kind Meadowlark home and experience the difference.

*From East Huron River Drive in Ann Arbor go North on Thornoaks. The home is on the left.*
