

## Kitchen Remodel and Master Suite Remodel with Custom Cabinetry

CJ South Photography

### 3683 Parkwood Circle, Ann Arbor

This kitchen and master bath were both outdated. The clients hired Alpha to do what they do best for their 5th consecutive project with Alpha. Alpha's designer went to town to reconfigure how the kitchen and family room worked together by opening up a wall while giving the kitchen a whole new face lift with new cabinets, countertops, lighting and flooring; a place where the whole family could gather for those football Saturdays.

It did not stop there; we moved to the master bath and completely reconfigured the bathroom to allow for a larger shower with ceiling rain head, new access to the walk in closet, enclosed toilet room with glass saloon doors, new sliding entry doors, new cabinets, countertop and Jacuzzi tub.

Wardrobe cabinets were added in the master bedroom along with reconfiguring of the master closet. Past projects include a two story addition, finished basement, office, Jack & Jill bathroom into two separate bathrooms. Don't miss this one.

#### About Alpha Design+Build

Visit us at [Alphadesignbuild.com](http://Alphadesignbuild.com) to see what we are all about or better yet - give us a call, become part of the Alpha family.

Located off Lohr Road and Oak Valley Drive in the Briar Hills Subdivision.
