COMMUNITY SERVICE PROJECTS

## The Project: A poured concrete ADA compliant wheelchair ramp & improvements to Rob's home exterior.

Rob Robertson and his wife, Nina, have found themselves in a difficult situation as a result of Rob's recent double leg amputations. Their Ypsilanti home lacks a wheelchair ramp, causing Rob to have to pull himself up and down the stairs on towels while Nina moves the wheelchair separately.

After being contacted for assistance, Dexter Builders and the BRAG Remodelers Council have been organizing suppliers and labor to construct a wheelchair ramp over the past year. They have applied for permits and plan to build the poured concrete ramp in September.

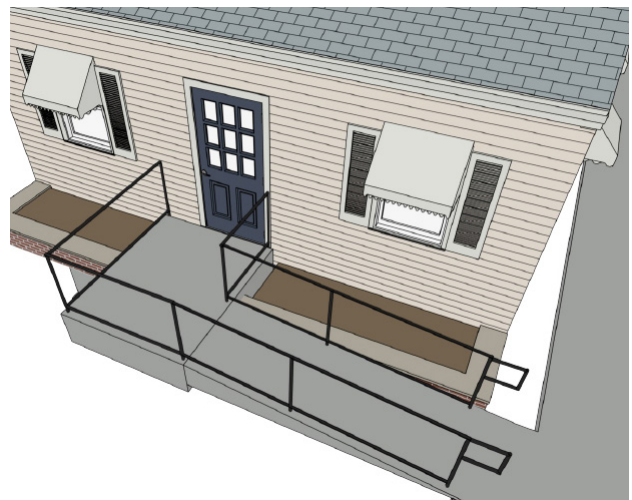

With a grant from the BRAG Ann Arbor Foundation for \$6,500, plus material and volunteer donations, we are still short of what is needed to complete the project. Please contact us to donate monetarily, with materials, or to volunteer to help do these life-changing home improvements. Thank you!

### Remaining Needs:

- Aluminum railing donation
- Garden bed materials
- Volunteers to rebuild garden beds
- Laborers for exterior improvements
