

MBK Constructors, Inc.

Addition - Primary Suite and Whole House Remodel

8

Jennifer Patselas Photography

This home showcases an existing colonial transformed inside and out with a thoughtful renovation that enhances both style and function. For this design-build project, the layout was reimagined to create a seamless flow and modern appeal. The renovation features a fully redesigned kitchen and a two-story addition with a spacious master suite, a convenient new laundry room, an attached garage that enhances function, and whole house exterior improvements that blend the new addition seamlessly with the original structure. Every detail reflects our team's commitment to craftsmanship and quality.

ABOUT MBK CONSTRUCTORS, INC.

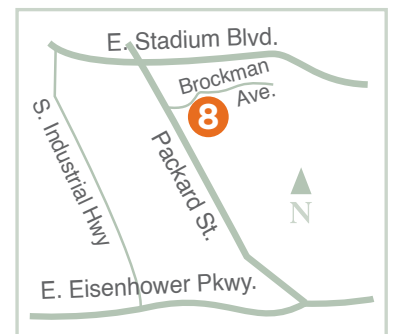

For more than 30 years, MBK Constructors has been exceeding expectations and earning trust with every project we do. We specialize in blending the old with the new, creating seamless additions, and quality on-budget renovations.

MBK offers design-build services to meet your vision and budget, or we can collaborate with your architect or designer to develop the estimate, budget, and project.
