

ACCLAIM CONSTRUCTION

Whole House Interior Remodel

11

Next Door Photos

1612 Granger Ave, Ann Arbor

Welcome to a Masterpiece of Renovation and Design! Acclaim Construction demonstrated their expertise from the first floor to the third transforming this home into a sanctuary of luxury and functionality.

The living room has a welcoming ambiance with recessed lighting and a redesigned fireplace. The kitchen underwent noteworthy upgrades, featuring new cabinets, quartz countertops, modern appliances, and lighting that enhanced both functionality and aesthetics.

The half bath was expanded and upgraded with a new cabinet, sink top, and modern fixtures. The primary bath became a luxurious retreat with a walk-in closet, soaking tub, walk-in shower, and upscale finishes. The guest bath was also transformed with a corner bath, ceramic tile, and new fixtures.

Third-Floor Oasis - Ascend to the third floor and experience a new level of tranquility. A brand-new office space was created. The bathroom has a new skylight, ceramic tile, corner sink that adds both style and convenience, making this floor a perfect retreat.

This home's transformation is a testament to Acclaim Construction's unwavering commitment to excellence. We'd also like to recognize and thank architect Charles Bultman for this successful collaboration.

About Acclaim Construction

Acclaim Construction has been doing exquisite whole house remodels as well as dormers and additions since 1990. Their kitchen and bath renovations are cutting-edge with efficient and effective designs. This professional firm works with both the owners and architects when formulating the design scope and preferred features.

From Packard go east on Granger.
The home will be on your right.
