

# MEADOWLARK DESIGN + BUILD

Remodel of Main Floor, Kitchen, and Mudroom

7

Jeff Garland Photography

## 1 Harvard Place, Ann Arbor

This remodeling project aimed to improve both the kitchen and the entryway without adding square footage. By strategically reconfiguring certain areas, Meadowlark successfully created a more spacious home with improved flow and additional storage.

The primary objective for the kitchen was to enhance its functionality and create an open atmosphere by introducing more natural light. Meadowlark increased countertop space without causing the room to feel overcrowded and incorporated the rarely utilized dining room into the kitchen, thus increasing its overall size. The striking Lacanche blue range becomes a spectacular focal point.

The mudroom was designed to be both functional and visually appealing, combining the existing entryway and foyer into one clean and organized space. Storage solutions were customized to the homeowner's needs, accommodating items like backpacks, boots, and winter coats while maintaining the desired aesthetic. The result is a beautifully transformed home that feels warm and inviting.

### About Meadowlark Design+Build

Meadowlark is an award-winning full-service design+build remodeling firm and custom home builder. When you partner with Meadowlark, you avoid the traditional hassles of remodeling and get clear, transparent communication at every step of the project. Our signature design+build experience is personalized and thoughtful. We guide you through the remodeling process, are passionate about our work, and are committed to a high level of quality. We customize every project to meet your personal needs and goals, and our in-house design team, project managers, and field crews deliver a space that you are proud to call home. It's your vision, realized.

Parking can be found along opposite streets, Onondaga or Oswego. Please cross Geddes carefully.

From Main Street in Ann Arbor, take Huron Street eastbound. Turn left onto Geddes Ave. Harvard Place is on the north side of Geddes, but it is narrow and on a steep downhill angle, so we recommend parking on a nearby street like Onondaga.
