

# Riemco Design + Build

*New Home Design + Build*

4

**IN-PERSON TOURS: Saturday & Sunday 11-5pm (6/25 & 6/26)**

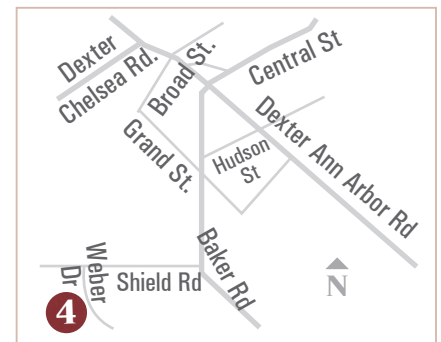

Riemco Design + Build's dynamic approach to design has led to homes ranging from historic recreations to modern gems. This year's focus is an example of Northwest Modern architecture.

Nestled into a suburban lot, this home presides over a picturesque bend in Mill Creek, within walking distance of downtown Dexter. Our clients requested a design that would take its cues from nature and envelop them in its surroundings. The result is a structure whose expansive windows embrace the home's placement among the branches. Its environment is captured in the warmth and tactility of the materials on the interior and exterior. Every level of the home offers direct connection with the outdoors among its multiple patios, decks, and balconies.

- Four bedrooms and three and a half baths
- A serene Master Suite balanced among the tree branches
- Second floor laundry
- A two-story bank of windows that overlooks the creek
- Custom wood cabinetry for the kitchen, bathrooms, and laundry
- A floating tread stairway, custom crafted from steel and white oak
- A cozy second-floor rec room with an attached balcony
- Two office spaces for working from home
- A walkout lower level offers comfortable space to spread out

**2323 Weber Drive, Dexter**  
*"Creekside Contemporary"*

3,848 Sq. Ft. | 4 Bed, 3.5 Bath

Off Shield Rd., between N. Parker and Baker Roads.
