About the Remodel Project

Located just outside of Northville in a very private community, this home boasted a large, yet dated, owner's retreat.

Under the watchful eye of Acadia Hahlbrock, the owner of Surroundings Design Studio, the space was transformed from a dark, unimaginative space to a bright, beautiful escape for rest and relaxation.

We are thankful to work for such wonderful clients and are proud of our dedication to individual service and commitment to providing the minute details that cap off every project.

We hope you enjoy our virtual tour and feel free to contact us to discuss your remodeling or new home building dreams.
