

Rochman Design-Build Whole Home Remodel with 2nd Story Addition

6

AFTER

Rochman Design-Build is proud to showcase this great project as part of our 35th anniversary year celebration, and as part of the Showcase of Homes.

This 1972 ranch styled home was transformed into a bold, modern, and updated space for three generations to live together. Current times called for a change to the 50-year-old structure: multiple spaces for working from home, more daylight and modern styling, more living spaces indoor and outdoor, and multiple en-suites.

Our clients came to us with a 3-bedroom ranch on a gorgeous property, and we expertly guided them through the architectural design and building processes. Most of our clients love their older homes and want to stay in them, but need a floor plan reconfigured, space added, or updated with a focus on aging in place. Come and see this amazing transformation, the crisp modern detailing, and the sharp professional interior styling.

Before	2,010 sf	Ranch	3 bedrooms	2.5 baths
After	3,320 sf	Modern, 2-story	6 bedrooms	4 baths

ABOUT ROCHMAN DESIGN BUILD

At RDB, we have a core philosophy that the remodeling journey is as important as the final destination. Our in-house designers can create inspirational designs that harmonize, enhance, and enliven a home's existing style. Our in-house construction staff then bring those visions to life with the utmost care, ensuring a predictable and dependable process. In addition, our owner and design director, Gary Rochman, is personally involved with every project. We are celebrating our 35th Anniversary this year and are proud of the scores of families we have touched and the homes we have transformed.
