

# Rochman Design-Build

## Remodel of Kitchen, Dining & Living Rooms

15

### ABOUT THE PROJECT

Come see this bright and modern kitchen remodel in Ann Arbor. We removed a central wall on the 1st floor and added a small addition to the back, yielding an open floor plan for the kitchen, dining, and living rooms. A gracious family space was thus created on the 1st floor of this 1968 home, transforming how the house lives as well as entertains. An improved mudroom and a new rear patio make the whole main level 'flow' and be more livable.

Two elements of this project are very common parts of many remodeling projects at Rochman Design-Build: improving and 'fixing' floor plans of older homes, and creating a gathering area centered on a beautiful, updated, and functional kitchen.

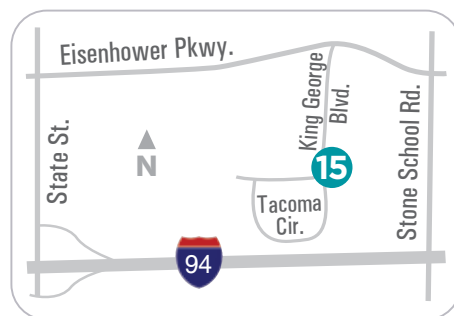

### ABOUT ROCHMAN DESIGN-BUILD

At RDB, we have a core philosophy that the journey is as important as the end-product with great remodeling projects. Our in-house designers create inspirational designs that harmonize, enhance and enliven a home's existing style. Our in-house construction staff bring those visions to life with craftsmanship and a dependable schedule. In addition, our owner and design director, Gary Rochman, is personally involved with every project. Our clients are guided through design and construction with great communication and care.
