ABOUT “THE SANCTUARY AT HOPE FARMS”

Architectural Resource and Adaptive Building Solutions are extremely pleased to share with you a unique home. This project, christened “The Sanctuary at Hope Farms,” was conceived to embrace the expansiveness of the surrounding fields and sky. The Sanctuary at Hope Farms is an Organic Modern, sustainable, ultra-green, all-electric, high-performance new construction home.

This home has been designed to achieve US DOE Zero Energy Ready Home certification. This means it will be a Net Zero Energy home - generating over the course of the year as much energy as it needs, creating an Energy-Free Future for our clients.

Designed embracing Aging-In-Place and FEMA Storm Safe principles allows effortless accommodation for our clients as they age and provides security no matter what life or Mother Nature might throw at them. Also designed to have an Ultra-Low Carbon Footprint employing several key features including a concrete-free Permanent Wood Foundation.

Come see cutting-edge sustainability married to contemporary style, learn what constitutes a resilient, high-performance home, and take away inspiration for your own project. The Homes of the Future - Today®

ABOUT THE ARCHITECT

Architectural Resource is a custom residential architectural firm that specializes in advanced, energy-free, sustainable, new and remodel residential design.

ABOUT THE BUILDER

Adaptive Building Solutions specializes in high-performance green building and provides a boutique renovation and custom home building experience.
